

TEAM Africa is an alliance of Advisors, Entrepreneurs, and Investors with a focus on the corridor between Germany, France and Africa. We share a passion for the last growth region and see potential in working together with our neighbors in the Southern Hemisphere.

With roots on the African continent (Ivory Coast, Cameroon) as well as the center of life over many years in Africa and countless projects in various African countries, we dedicate all our energy to cooperation with this great continent.

We believe in sustainable actions and economic cooperation with impact and consider the Sustainable Development Goals with care for women, young people, entrepreneurship, and job creation – in both Francophone and Anglophone Africa and the rest of the continent.

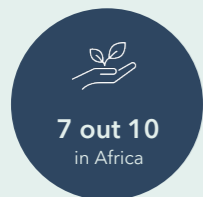

In addition, we promote joint events, conferences, publications, and thought leadership – all our activities are geared towards intensifying the engagement of businesses, associations, foundations, and politics in relation to Africa.

Our conviction is that to go far, we should go together – tackling the opportunities and challenges in partnership and on an equal footing. **Together Everyone Achieves More.**

“ *If you want to go fast, go alone. If you want to go far, go with others.* ”
(African proverb)

Africa's Potential in Facts & Figures

Fastest growing economies

World's largest free trade area
